

Ishwar C Puri was born in Punjab, India on 26 of November 1926 and was initiated at the age of 9 by Hazur Maharaj Baba Sawan Singh - The Great Master, in 1936.

He was noticed inside his mother's womb by Sawan Singh and identified as a returning friend. Ishwar's mother was requested to bring her baby to him as soon as it was born. She did this when he was 29 days old, and Sawan named him Ishwar (I Love God).

From then on Ishwar got the special grace of many interactions with Sawan Singh of which he remembers every detail and often shares the stories.

Ishwar Puri Ji former senior official with Indian government, came to the USA to study at Harvard University in the early 60's and permanently in 1982 to witness that the mantle of spirituality will be changing from the East to the West, as Sawan told him it would.
